We have two classes of service. One is an annual update service. This service will update each city's code once a year by incorporating all of the ordinances adopted during the past year and any amendments made to the city's charter. Each city that takes advantage of this service will pay an annual fee that includes the update and ten copies of the updated pages. Additional copies will be invoiced separately based on our actual costs for duplication, dividers, and shipping. We have a per page fee based on the number of modified pages we return to the city. This will allocate the cost fairly based on the amount of work done on each update.

The second service is for a complete code, which includes new codes from scratch, all future conversions from the old MTAS codes, and any conversion of a code prepared by a private code company.

Charges for both services are based on population because of the relative work load and the ability of the city to pay. We will send an invoice to cities for fifty percent of the cost of a complete code when we are ready to begin work on the code, usually three to four months before completion. We will invoice cities for the remaining fifty percent upon delivery.

Dear Ms. Sandidge:

Since you have used MTAS codification services in the past, we are sending you this letter to inform you that we will be raising the rates slightly for our codification services on July 1, 2008. This increase will not affect any cities that have sent ordinances for an update prior to July 1, 2008, or have sent a resolution requesting a new code prior to July 1, 2008. Only cities requesting services after July 1 will be affected.

The new rates for your city after July 1, 2008, based on your city's population will be as follows:
Complete Code - \$4,770; Annual Update - \$383.00 + \$16.00 per page.

If you have any questions, please contact your MTAS management consultant.

Sincerely,

Mike Tallent
Interim Executive Director
